

2017

Rodeo Tomato

Harris Moran - 1823

Harris Moran - 1823 tomato is a reliable medium to large fruited heat setting Beef steak slicer. If grown and maintained correctly, each plant has the potential of setting 25 plus pounds of high-quality marketable fruit. The fruit are very tasty and consist of a superb sugar to acid flavor. The plant also has a wonderful disease resistance package.

The Junior Master Gardener 4-H Programs and Texas Master Gardener Programs are joining together, to cultivate the youngest gardeners in Texas.

Funds generated from the sale of this plant will support teacher and volunteer training programs to implement Junior Master Gardener programs in your local schools and communities. The Junior Master Gardener program is committed to GROWING GOOD KIDS by igniting a passion in children for learning, success, and service through a unique gardening education.

The Junior Master Gardener 4-H and Master Gardener programs are part of Texas A&M's AgriLife Extension Service.
